## Goodreads.com

Goodreads.com is a social network and virtual library for book aficionados! Connect your Facebook, Twitter, or Gmail account to Goodreads and start reading.

### 1. **Organize the books you read onto virtual shelves.**

Create unique shelves for your books based on however you want to be organized!

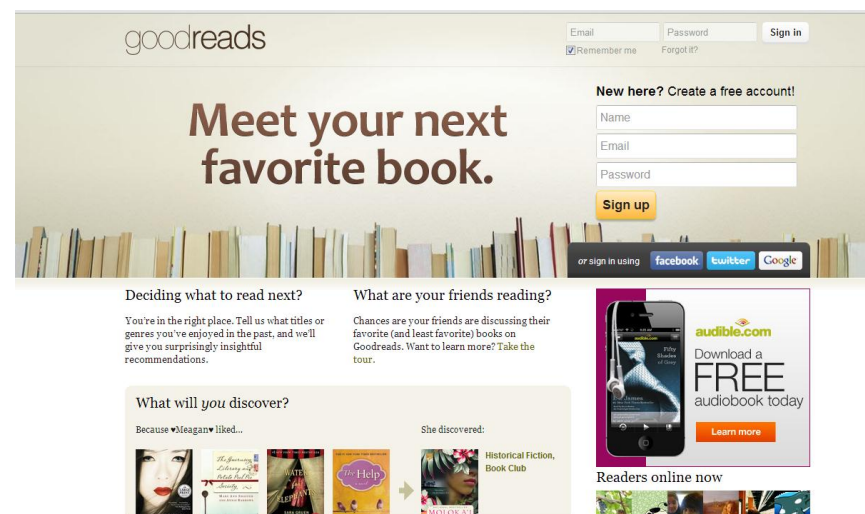

### 2. **Create a to-read list!** Goodreads makes it easy to add books to your reading list. With the Goodreads mobile app, you can scan the ISBN code of a book and it will be added directly to your to-read list!

### 3. **Connect with a virtual book club!** Find book clubs for any age or genre with the Groups feature.

### 4. **Keep track of what your friends are reading.** With an update feed on the main page, you can see what your friends are reading and their thoughts as they read through their books!

### 5. **Write book reviews.** Goodreads has a very detailed system for book reviews. Reviews all appear on the specified book's page and are visible to everyone.

### 6. **Discover Prerelease books.** Goodreads users are able to receive advance copies of upcoming books. Publishers love book reviews so users are encouraged to write reviews for the books they receive.

### 7. **Find book recommendations!** Goodreads is able to provide accurate book recommendations based on your reading history.

### 8. **Connect with authors!** Many authors use Goodreads to connect with their readers. Participate in Q&As, read their blogs, and join their bookclubs!
